

ht 7450 | Zero-Gravity
Massage Chair

Take the weight of the world off your back.

The Zero-Gravity Massage Chair

On earth, there's no escaping gravity. But now there is a way to escape the soreness, tension and fatigue its constant pulling has on the back.

Introducing the Human Touch™ 7450, the world's first massage chair that incorporates the latest advances in both massage and back-care technology to virtually defy gravity's adverse effects. As the HT-7450 reclines, its back, seat and footrest

synchronously move to position the body in a virtually weightless condition - the ideal posture for massage. From there, the patented human touch massage system goes to work, providing a deep, invigorating massage of the neck, back and legs, leaving you feeling refreshed and recharged. The HT-7450 is the first chair of its kind. And with its revolutionary design and numerous engineering advancements, back pain - and gravity - will no longer keep you down.

More Features for More Comfort

ZERO-GRAVITY DESIGN

Reclining into a zero-gravity position, with the knees above the heart, relaxes and decompresses the spine. This neutral posture increases blood circulation, enhances comfort and enables a more invigorating and effective massage.

TRUE-ZERO ARMRESTS

The armrests glide independently of the backrest as the chair reclines, ensuring the optimal ergonomic ratio between the arms and body. There is virtually no stress or strain on the neck, shoulders or arms while in a reclined position.

MASSAGE COMFORT CONTROL

Use the Massage Comfort Control on the remote to customize the massage intensity. You can also use the Massage Comfort Control (in non-massage mode) to create a seating experience of unsurpassed comfort and relaxation.

SYNCHRONIZED SEAT RECLINE

As the chair reclines, the seat automatically tilts downward independent of the backrest, allowing the body to naturally move into the most comfortable and effective massage position. This design provides superior lumbar support at any recline angle.

FOOT AND CALF MASSAGER

It's ideal to massage the calves in an upward, rolling or wave-like fashion. This motion forces blood away from the feet and toward the core of the body. The width and intensity of the foot and calf massager can be adjusted and customized.

DUAL-LUMBAR BACK HEAT

Two lumbar heat modules gently warm the lower back muscles, gradually reducing tightness and pain. Heat calms and soothes back muscles, preparing them for a more restorative massage and faster healing.

HT-7450 Massage Chair Features

- **Adjustable Headrest:** Easily adjust the headrest to read, sleep, or just relax in pure zero-gravity comfort.
- **Acupoint Detection System:** To ensure an effective and targeted massage for all body sizes, types and pressure points, Acupoint scans the entire length of the back creating a map of key pressure points to target during the massage.
- **Adjustable Backrest:** With the push of a button, you can adjust the backrest angle.
- **8-Point Pulsating Seat Massage System:** The pulsating seat massage targets the key pressure points of the sciatic nerve along the buttocks and upper hamstrings to promote optimal lower back relief.
- **Adjustable Footrest Height:** Adjust the height of the footrest to ensure your complete comfort at all times.
- **Adjustable-Width Foot and Calf Massager:** Both the width and intensity of the foot and calf massager can be adjusted and customized.
- **Dual-Lumbar Back Heat:** Two lumbar heat modules gently warm the lower back muscles, gradually reducing tightness and pain.
- **Neck-Contoured Comfort Pillow:** The comfort pillow conforms to the contour of the neck for optimal support and superior comfort.

8 Pre-Programmed Messages

- | | |
|---------------------------------|-------------------------|
| 1. Full Body Sore Muscle Relief | 5. After Work Stretch |
| 2. Sports and Back Therapy | 6. Morning Programme |

Foot and Calf Massager

Massage Controller

Take Control

Your Human Touch® massage chair remote control lets you easily customize your massage to suit your needs. Use the Manual Massage Modes to select a specific massage technique. Or select one of eight Auto Massage Programmes. Each Massage Programme is designed to meet a daily routine, such as sore muscle relief or an after-work stretch. Fine-tune your massage using the unique Massage/Comfort Number and Acupoint detection features. Explore each of the lower body massage options, which target calves, feet and seat. When you're finished, store the remote control in the convenient storage pocket.

Colours available:
Black and Dark Chocolate.

It's hard to believe it's not human!

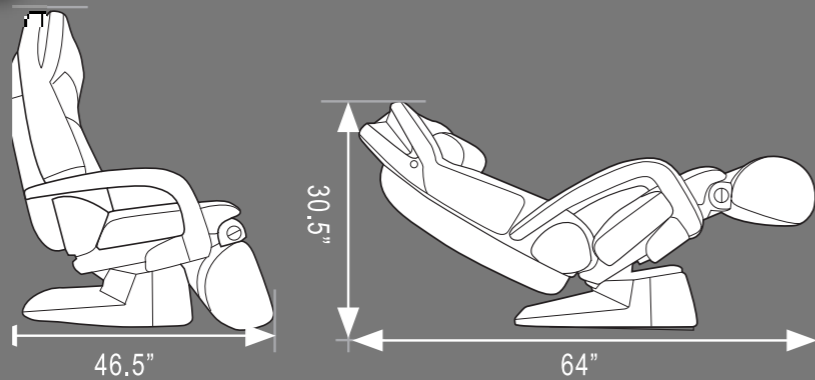

Your Human Touch® massage chair is the perfect bridge between state-of-the-art technology and the ancient healing art of massage. It's a key ingredient for a balanced life - and it's right in your own home!

Your Human Touch® massage chair incorporates Human Touch Technology® - the very latest Robotic Massage® system. It emulates the same techniques used by massage and chiropractic professionals for back and spinal care.
